Press release

Paris, 02 November 2017

Amarisoft participates to the Telecom Infra Project (TIP) 2017 Summit scheduled on November 8-9, 2017 in Santa Clara, CA.

Amarisoft is now a member of the TIP Ecosystem Accelerator Centers (TEACs) through the bolstering program "Télécom Track" by Orange Fab.

Live demonstrations will take place on our booth #16. Come and have a chat with our team about our solutions and your LTE projects!

- PMR and vRAN use cases with our partner **Air Lynx**, https://www.air-lynx.com/
- IoT and LTE testing products with our partner **Valid8**, https://valid8.com/

Founded in February 2016, the Telecom Infra Project, Inc. is an engineering-focused initiative driven by operators, suppliers, developers, integrators, and startups to disaggregate the traditional network deployment approach.

About Amarisoft

Amarisoft is a software company dedicated to LTE 4G (5G). Our world unique LTE software suite runs on generic PC hardware (including PHY layer). Our LTE technology accelerates the process of building products like eNodeB, Core network, NB-IoT and v-RAN based solutions.

From research, proof-of-concept, testing, product manufacturing, industrialization and maintenance, our ecosystem of partners and integrators guarantees success to your wireless telecoms project.

With more than 300 customers all around the globe, our community is growing at a fast pace. We address a wide range of customers: telecoms equipment manufacturers, operators, telecoms integrators, government agencies, universities and R&D labs.
